

# Brian Campbell joins Essexville-Hampton

The Board of Education welcomes Brian Campbell as the new principal of Garber High School

Previously employed at All Saints Central in Bay City for 14 years, Brian served in a variety of roles, including social studies teacher, interim principal, assistant principal, principal, and president. He earned a B.A. in economics and history from the University of Michigan and an M.Ed in administration and principalship from Saginaw Valley State University. Raised in Essexville, Brian lives in Hampton Township with his wife, Dana, and two sons, Henry (9) and Eddie (6).

"Brian was an exceptionally strong candidate during the interview process. He showed himself to be strong in his knowledge of curriculum, well rounded, and very student-oriented while also being supportive of teachers and staff. He is a great listener with a calming demeanor. I feel extremely comfortable with Brian as our new principal," Assistant Principal Suzanne Brown said.

"I am no stranger to the Essexville-Hampton community. I grew up in Essexville, and my two younger sisters graduated from Garber. As a student, I attended plenty of proms, homecomings and many other school events at GHS. My wife, Dana, and I chose to raise our two boys here. Essexville is home for me. I know Garber has a long history of excellence and a reputation for commitment to student achievement. I look forward to working with all of you to do great things for our students."
